Subject: MBRT Meeting Reminder and Project Overview Papers

This Cover Letter is also attached as a Microsoft Word Document for your convenience. To Members of the Mat-Su MBRT: The purpose of this email is two fold. First it is a reminder of our meeting that will take place on Friday January 27th, 2006, at the Historic Anchorage Hotel which is located at 330 E. Street, Anchorage. The Hotel phone number is 907.272.4553. We are scheduled to begin our meeting at 8:30am, and we have the conference room until 1pm. The second reason for this email is to deliver the three white papers that we have created for your review. Attached to this email are actually five documents: 1. Certification Process Overview: this document provides an overview of the certification process. 2. Preservation Banking Overview: this document provides an overview of the appropriateness of preservation banking in Alaska. 3. Site Selection Process Overview: this document provides an overview of the site selection process that we have gone through and a short summary of the 11,000 acres of land that we are proposing as our preservation bank. 4. Site Selection Matrix: this is an excel file that provides support of the Site Selection Process Overview. 5. A Functioning Mitigation Bank Review Team & Preservation Banking: this document was written by Kent Smith who is the Assistant Regional Manager and Regional Mitigation Banking Coordinator, California Department of Fish & Game. We contracted with Mr. Smith to write this paper so as to provide more background on the Certification Process Overview and Preservation Banking Overview. If you have any questions that you would like to discuss with us before our meeting next week please do not hesitate to contact us via email or by phone: Jerome Ryan 415.435.3734, Jake Hodge 415.515.6976 and Dr. Kevin Noon 303.969.2815. Through our communications we have determined that the following people from the following agencies will be on the MBRT, although this list may not be complete or final.

Skip Joy, Army Corps of Engineers
Steve Duncan, Environmental Protection Agency
Mike Bethe, Office of Habitat Management and Permitting (DNR)
Phil Brna, U.S. Fish and Wildlife Service
Jim Powell, Alaska Department of Environmental Conservation
Larry Peltz or Brian Lance, National Marine Fisheries Service
Kim Kruse or Amanda Henry of the Alaska Coastal Management Program (DNR) might

also become a member. We look forward to seeing some of you again, and to meeting some of you for the first time. We appreciate your time and thank you for being willing to help us certify these 11,000 acres as a mitigation bank.

Best Regards,

Jerome Ryan, on behalf of Sustainable Environments, LLC
